## Going for Gold

Jan 1, 2009 By: Megan O'Neill

American Spa At Bella Santé, the Spa at Lexington (MA), the 24K Golden Veil Facial (\$155, 80 minutes) includes several gold-infused products that are used throughout the treatment to tighten and firm the skin. First, the face is massaged with a gold-laced massage balm before being cleansed, exfoliated, and treated with masks. A blend of a golden milk and gold powder are massaged in at the end, producing immediate results. Guests leave with skin that's glowing, both from the massage and the gold powder. "This is for a more mature client who is looking for facial rejuvenation," says spa director Caroline Bradford.
