BEAUTY, SPA

Bella Santé This Newbury Street destination is everything a spa should be: luxurious, tranquil, soothing, and relaxing. Yes, you can get the usual spa fare like facials, massages, and various body treatments; but Bella Santé also offers a number of signature treatments like oxygen, champagne yeast, and acupuncture facials, plus hot-rock Reiki massages. Men are not forgotten: Macho Mondays are a veritable testosterone fest, with snack food, ESPN on television, old-fashioned hot shaves, and deep-tissue massages.
